## Thought for the month

As I write this, the coffin of the late Queen Elizabeth II has just begun its procession down the Mall to lie in state at Westminster Hall. We are at the heart of the period of national mourning, witnessing a process which few of us, less than 10%, have ever experienced, and fewer still would at the time have been old enough to remember. It has, I think, for many of us, a sense of unreality. Something which we have grown up to think of as eternal has suddenly come to an end. We are, many of us, not ready for that.

So let me focus for a moment on the person, not the Monarch. She was a person for whom her faith was at the core of her being, for whom the vow of service she made on her 21<sup>st</sup> birthday was unshakable, and defined the rest of her life.

While I am quoting statistics, over 30% of the population – almost one in three of us – will at some time in their lives have come into her presence. If you were fortunate enough to be one of them, the experience has probably never left you.

For me, it was the time, in the midst of a hectic state visit to Washington DC, when she insisted on giving up the little free time in her schedule to meet members of the armed forces working there, to thank us for the jobs we were doing.

Or the Sunday morning we chanced to see her drive out of Windsor castle across the Great Park. We learnt later that it was her habit on many Sundays to forego the splendour of the Chapel Royal, and instead to drive herself to All Saints Chapel, in the centre of the Park, to join those who worked alongside her in the Castle, to share hearing the word of God unwrapped in Morning Prayer.

And, of course, there *is* something eternal in all of this, which will never come to an end. The love of the God in whom she believed – for her, for the nation which she served, for every one of us.

When we think of her, let us, as it says in the bidding prayer, *look not to the things that are seen but to the things that are unseen; for the things that are seen are transient but the things that are unseen are eternal.*

*May the Lord bless her and keep her. May she rest in peace and rise in glory.*

## Ashbury News

### APC Councillor's Corner

I cannot yet report on September's Council meeting, as it was postponed to respect the period of mourning for Her Late Majesty Queen Elizabeth II. Her death, even though at a great age, was still a shock to the nation, from which we are still recovering. It seems strange to be turning again to normal matters. But there are a few items of news to share with you.

First, it is right to express here our whole community's thanks to the four volunteers who between them over the summer have restored the Bus Shelter in the High Street to such a splendid state. They have not only produced a result which is a credit to the village, in place of the near-wreck we had before, but they have also saved the community many thousands of pounds, which had been budgeted for a new replacement and can now be used by the Council for other purposes, in the interest of all. The expert craftsmen and heroes in this tale are Dave Jilbert, Tony Holland, Neil Crook and Tony Craddock. Our warmest thanks go to them all.

The second positive development over the summer was the Council's signature with Lorna of a further seven-year sub-lease on the Ashbury Shop. We have seen the shop develop, even through the last difficult Covid years, as a valued facility and meeting place in the parish; and the Council was glad to agree this extension of the sub-lease. We hope that all residents will do their best to support Lorna and her team in the years ahead. This is your Shop and Café. Please make use of it and help it to thrive and develop further. The more footfall there is, the more the Shop will be able to offer.

Finally, you may have noted that a discreet solution has been found and implemented at the Shop to the perennial difficulty of screening their waste bins. The Council were glad to organise this in the community's interest and were also grateful to Lorna and to Rob Selbourne for their contributions to the cost.

Looking ahead, we are all going to have to cope with the closure of the road to Wantage from late September for a long period for extensive repairs. This comes on top of the closure of Station Road for over a week in August after the water main burst. That created great difficulties, in particular for residents of Kingstone Winslow, who had to put up with the annoyance of a stream of vehicles, even a huge HGV, through their narrow lane. In this new case, our tolerance of the disruption will, I hope, be justified by the result, a safer road for all. The repairs are certainly overdue.

#### **Concert at St. Mary's Church, Longcot on Sunday 16th October**

Following their performance of the Beethoven Septet for wind and strings last November, the Torriano Ensemble is delighted to be returning to St. Mary's Church, Longcot to give a concert of chamber music for wind instruments on **Sunday 16th**

**October** at 6 pm. The programme features music for the relatively unusual but very sonorous combination of two clarinets, two horns and two bassoons, which should sound particularly well in the lovely acoustic of St. Mary's. Beethoven's effervescent Sextet Op 76 and Mozart's sublime Serenade in E flat K. 375 are teamed with a contrasting 20th century work by the Hungarian composer Matyas Seiber, which was described in the Edinburgh Review as 'quite scrumptious: warmly lyrical, sometimes pastoral, with some influences from jazz rhythms and a lot of influences from Hungarian folk music.' As for all our previous concerts, entry will be free with a collection after the concert, and reservations should be made in advance by email to victorialmedcalf@gmail.com All profits from donations will go to help the Longcot Village Trust to support future community projects in the village. The bar will be open from 5.30pm for drinks before the concert and also at the interval.

We are very much looking forward to playing at St. Mary's again and hope very much that you will be able to come.

### **Fernham News**

Fundraising Presentation by historian Tom Arnold, with cheese and wine

On the evening of **Friday 18 November**, historian Tom Arnold will be giving a presentation on "Unusual Things you didn't know about World War 2" – including how Britain stopped Japan from acquiring an atomic bomb, the submarine that sank a train and the greatest loss of life at sea (ever) (not the Titanic!).

The presentation will be in St Johns Church and Fernham Village Hall, High Steet, Fernham, SN7 7NX at 7.30 pm on 18 November. Free parking.

No entrance fee but donations to this fascinating presentation, the food and drink would be very welcome; this is a fundraising event to meet the share and the village hall's expenses. We are very much looking forward to playing at St. Mary's again and hope very much that you will be able to come.

Care is still being advised in respect of covid, so we are of course still being careful when distributing the sacraments and if you do not wish to receive in both kinds (i.e. to share the common cup as well as receiving the bread) please feel free to do that. We will continue to wear masks and use hand sanitiser during the prayers of consecration and the distribution. This will also apply to lay administrators of the cup. The rim of the cup will be cleaned after each communicant has received. Intinction by communicants is not recommended and we will not be offering this, but we will keep the matter under review. Please talk to Norma if you have any questions and, of course, please do not come to Church if you have covid symptoms.

**Living in love and faith** – a five week course starting on 8 October in St Andrew's vicarage

The course aims to help Christians think more deeply about what it means to be human. It provides a structured and accessible way for local groups to engage in and reflect on Living in Love and Faith, a major exploration of Christian teaching and learning about identity, sexuality, relationships and marriage. The five sessions of the course each address a key question:

- \* What does it mean to learn together as followers of Jesus Christ?
- \* How does our identity in Christ relate to sex and gender?
- \* What kinds of relationships does God call us to?
- \* Where do our bodies and sex fit in to all of this?
- \* How do diversity and difference affect our life together as a church?

Each session includes an opening reflection about learning together, followed by teaching, time for discussion and Bible study. The sessions end with an invitation to reflect on our learning, bringing it to God in prayer.

For more information, contact Rev'd Norma Fergusson on 01793 784338

**The Ambassadors Bible Church** meet at what was the Ashbury Evangelical Free Church at 10:00 am each Sunday morning. All are welcome and there is also a Sunday School for the Children which meets at the same time.

## Country Matters

Now is the time of year when we are hedgcutting. Laws to protect nesting birds prevent cutting in August. Most autumn crops have not been planted and with the ground still dry we are not damaging the soil. When all was brown during the hot weather these hedges stood out in contrast as vibrant and green. In many ways they are what defines our landscape as England's green and pleasant land, with a patch work of enclosures rarely seen in other countries.

In the last few decades I have planted two and half miles of new hedges to join up and border eight new woods that were planted in the 1990's. The motivation springs for a desire to form wildlife corridors between the woods and more recently this policy is endorsed by the news that hedges are good for carbon capture in our battle to fight climate change.

Historically the Enclosure Acts of the late eighteenth century must have changed the face of local landscapes. The strip systems of subsistence farming could not feed the expanding urban population driven by the Industrial Revolution. At the time it must have been highly unpopular as commoners' strips were expropriated by the lords of the manor and other landowners including the Cravens at Ashbury and Uffington who then enclosed their new lands with hedges.

Food production rose with more cropping and expansion of sheep flocks and cattle farming. The hedges defined different soil types, gave shelter to grazing flocks and herds and facilitated management.

It's well known that you can tell the age of a hedge by the variety of species and our downland tracks which probably predate the Enclosures Acts as droving routes are resplendent with dogwood, guilder rose, hawthorn, elder, blackthorn producing sloes, spindle berry, field maple, crab apple, viburnums or wayfaring trees, privet, willow, hazel and sometimes holly.

We have to protect our new hedges with spiral guards against rabbit and hare. Deer and badger in numbers also threaten new plantings and sometimes I have had to fence and electrify them which is a cost and a bore. Ideally these new hedges should be trimmed onto an A shape so that in time the base fills rather than appear bare, with the wind whistling through.
